

## Jamaican Juice Box Racer

### WHAT YOU NEED

- Juice box or bottle
- Tape
- Two thin dowels or skewers
- Paper squares (optional)
- Two drinking straws
- Markers (optional)
- Four plastic bottle caps
- Glue stick (optional)
- 4 ft piece of string

### WHAT YOU DO

- Cut straws one inch longer than width of juice box.
- Cut the dowels two inches longer than the straws. Slide a dowel through each straw.
- Drill or punch a small hole in the middle of each plastic cap. Push caps onto the ends of the dowels, making sure they fit snugly.
- Lay juice box on its side and tape straws to bottom.
- Punch hole in top end of juice box. Tie string through hole.
- Decorate! Use paper squares, markers and glue stick to add some flare to your racer.

***Think green! See how many parts you can get from recycled or natural materials.***
